

QUOTATION & SERVICE AGREEMENT

Client: Niccolo Andrei Paulino

Developer: Joshua Padilla

Project: Digital GIS Environmental Monitoring System for ICCT Binangonan Campus

Project Cost: PHP 10,000.00

Down Payment (25%): PHP 2,500.00

Remaining Balance: PHP 7,500.00

Deadline: June 26

Project Scope and Specific Objectives

1. Create a digital GIS map of ICCT Binangonan Campus based on a 2D campus map layout reference provided by the client.
2. Allow authorized users to log, record, and mark environmental issues (e.g., waste accumulation, drainage problems, and maintenance concerns) on the campus map.
3. Store environmental data including location, description, and date of report in a centralized database.
4. Enable campus administrators to view, monitor, and track environmental issues through an interactive map-based interface.
5. Assist school administrators in planning, prioritizing, and implementing appropriate campus environmental actions.

Terms and Conditions

- Hosting will be deployed using free-tier Vercel hosting whenever technically feasible.
- If the project exceeds the limitations of the free-tier hosting plan, the client shall be responsible for any required hosting upgrades, subscriptions, or related costs.
- The purchase, renewal, and maintenance of any custom domain name shall be the sole responsibility of the client.
- The quoted price covers only the agreed project scope described in this document.
- Major revisions are not included. Major revisions include, but are not limited to: new features, new business processes, new modules, or significant changes outside the originally approved scope.
- Minor revisions and bug fixes directly related to the approved scope may be accommodated during development.

Payment Terms

- 25% Down Payment (PHP 2,500.00) is required before development begins.
- Remaining balance (PHP 7,500.00) shall be paid upon project completion and prior to final deployment or turnover.

Acceptance

By signing below, both parties agree to the project scope, pricing, terms, and conditions stated in this agreement.

Niccolo Andrei Paulino (Client)

Joshua Padilla (Developer)
